

PROCESS OIL : RUBBER

PROCESSING OIL

Meets: PROPRIETARY GRADE

PRODUCT & TECHNICAL DATA SHEET

Gresol Lubricants

Product Name: **GRESO RUBBER PROCESSING OIL**

DESCRIPTION

Refined straight mineral oil of low viscosity index, specially developed for providing properties to facilitate mixing operation, reducing compounding time and improving processibility of rubber. It assists in modifying physical properties of finished rubber products.

APPLICATION

Use in raw rubber mastication during initial processing of rubber.

PERFORMANCE BENEFITS

- Tailor made viscosity to suit hydraulic systems.
- Good Film Strength.

PERFORMANCE STANDARDS

Meets Followings Specifications

- Proprietary grade

LEADING RUBBER PROCESS OIL MANUFACTURER IN INDIA
